EQUAL OPPORTUNITY

The Police Jury encourages Minority-owned Business Enterprises (MBEs), Woman-owned Business Enterprises (WBEs), and Section 3 eligible businesses to submit proposals.

SCOPE OF SERVICES

The Police Jury, on behalf of Fire District No. 5, seeks a qualified engineering firm to provide complete professional services including planning, design, bidding, construction administration, and observation for the full replacement of Firehouse #5 in Fenton, Louisiana. The existing station was rendered inoperable by Hurricane Laura (2020), leaving approximately 2,500–3,000 residents across a 125-square-mile, predominantly low- to moderate-income service area without reliable local fire and emergency response capabilities.

The project entails the design and construction of a new, fully resilient fire station on a vacant parcel currently owned by the Fire District. The facility will be designed and constructed as a hazard-mitigation measure, engineered to remain fully operational during and immediately after hurricanes and other severe storm events. The structure will incorporate all applicable resilience and mitigation standards and will be built to withstand extreme weather conditions.

All work shall fully comply with the current International Building Code, Louisiana State Uniform Construction Code, ASCE 7 and 24, ICC 500 standards for essential facilities, and all applicable federal, state, and local regulations and floodplain ordinances.

The selected engineering firm will be responsible for all necessary civil, structural, architectural, mechanical, electrical, plumbing, geotechnical, surveying, permitting, cost estimating, preparation of bid-ready construction documents, construction administration, observation, and project closeout services. The firm will also be responsible for conducting or procuring all applicable environmental assessments, consultations, and compliance documentation required to meet federal, state, and local environmental review standards.

Upon completion, the new Firehouse #5 will restore critical emergency services, substantially reduce vulnerability to future storms, achieve a reduction in potential damage compared to the pre-Laura facility, improve emergency response times, and provide long-term, resilient protection for the surrounding community.

The agreement will be on a lump sum, fixed price basis (or cost reimbursement "not to exceed" basis), with payment terms to be negotiated with the selected offeror. Reimbursement for services will be contingent on the Police Jury receiving funding from the LOCD-DR. The maximum amount of engineering fees that can be paid with CDBG-DR or CDBG-MIT funds will be determined by the LOCD-DR and may require adjustments in the proposed contract amount.

The services to be provided will include, but not be limited to:

1. Designing system improvements and construction engineering.
2. Assisting the administrative consultant with the construction bid package in conformance with applicable federal requirements and supervising the bid advertising, tabulation, and award process, including preparing the advertisements for bid solicitation, conducting the bid opening, and issuing the notice to proceed.
3. Assist in conducting the preconstruction conference.
4. Field staking, on-site supervision of construction work, and preparing inspection reports.
5. Reviewing and approving all contractor requests for payment and submitting approved requests to the governing body.
6. Providing reproducible plan drawings to the Police Jury upon project completion.
7. Prepare operating and maintenance manuals.
8. Conducting final inspection and testing.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The offeror further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The offeror agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

**RFQ Fire District #5 Reconstruction
Project # 27LDRC7702**

The offeror further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.
